

## Mental Health and Disability Services Redesign 2011

## Children's Disability Workgroup Mental Health Core Services & Programs

Date: October 10, 2011

Source: TAC, DHS & Workgroup

This table describes high level domains, an array of core services necessary in a system, and the core programs with an evidence-base that can deliver the services necessary to yield positive outcomes. Due to the relevance of some services and programs in each of the domains, several apply to more than one domain.

Core Service Domain	Core Services	Core Program/Service	Currently in System	Statewide
